

The world is changing thanks to electronic signatures and digital records, but with each legal and technical advance, much work remains to be done. ESRA guides government, public, and private organizations through digital transformation initiatives and spearheads the promotion of secure, mobile, and binding electronic signatures and records around the world.

ESRA's annual conference, eSignRecords2019, is the premier event on issues surrounding electronic signatures and digital records. eSignRecords2019 provides industry leaders a place to advance best practices and learn about current trends in the digital arena. Conference sponsorship provides a high visibility, cost-effective way to reach decision makers in the digital industry. The various levels of conference sponsorship mean you can tailor a program to meet your specific needs, and position your company as a leader in the industry.
